**LOCAL BREVITIES.**

An abundance of rain continues to bless mankind and boost the growing crops.  
Mrs. P. C. Haller is entitled to credit for raising the first "home-made peas" in Iron-ton this season.

The Board of Directors for the Academy of Music will meet at the hall next Wednesday, at 2 o'clock P. M.

The County Court has fixed the levy for 1883 as follows: For county purposes 40 cents on the \$100 valuation; for road purposes, 10 cents on the \$100.

Geo. Spitzmuller, Esq., was last Saturday elected a member of the Board of Trustees for the Town of Pilot Knob. He will make a good and attentive official.

How much better it would have paid our Presbyterian brethren if they had taken the money spent on the "tall tower" and invested it in a neat little parsonage?

The County Court has fixed wine and beer licenses for State purposes at ten dollars, and three hundred and fifty dollars for county purposes, for twelve months.

The Ministerial Association held at Farmington last week, after a session of several days, adjourned to meet in Iron-ton in October. The late session was a successful one.

Jos. A. Reburn, Esq., is the happy possessor of a fine, 10-lb. baby girl, who came to his house on the 31st ult. He is proud of his acquisition, and doesn't care who knows it.

The Knights of Honor meet this (Wednesday) evening, and all members are earnestly requested to be present, as there will be some important matters brought up in which all are interested.

Mr. Kesling is making bricks this summer, and will in due time burn a kiln of a hundred thousand or so. We presume it pays better than the water-melon business—during high water, anyway.

Clay Cole, Esq., late of Graniteville, has removed to Poplar Bluff and is now in partnership with his brother-in-law, Mr. Chas. Giese, merchant tailor. They will give the Bluffs its due this need no urging.

The County Court has levied a tax of \$40 on circuses, and \$20 on shows, menageries, etc., and \$5 on all theatrical performances except those given for religious, educational or charitable purposes, for each day's performance.

The Board of Equalization for the city of Iron-ton will meet next Monday in the council room in the Academy of Music building. Many recent improvements within the city limits will make considerable work for the board.

Judge Emerson, W. R. Edgar and J. B. Walker, Esqs., returned from Centerville last Saturday—late. Court had not finally adjourned, but all the business had been transacted, except some motions which detained only those interested.

An engine was taken down to Buford Mountain yesterday, and for several days machinery of various kinds has been passing through town bound for the same destination. We presume a thorough test of the mountain's ore capacity will be made.

Rumor says that another of Delanville's cast-off houses is about to be brought over to Iron-ton, converted into a first-class business house and located on Main street. If this sort of thing keeps up, the name of our little city should be changed to Shantytown.

The St. Louis Ore & Steel Company offers \$100 reward for information that will lead to the arrest and conviction of the scoundrel who set fire to the warehouse on the Knob on Sunday night, May 27th. We hope some good man may point out the incendiary and secure the hundred dollars.

The Methodist Church of Iron-ton has just been repaired and repainted, and its general appearance is greatly improved. The members of the congregation desire, through the REGISTER, to return thanks to the donor of the paint, and to the painters, who worked without money and without price.

J. Grandhomme, Esq., has procured a flag-staff sixty-two feet long which will be in a few days planted in front of his saloon on Main street. He will decorate the staff with a fine, large, American flag, on state occasions. The pole is yellow-pine and as pretty a piece of timber as we have ever seen; straight as an arrow, and of even taper from butt to tip.

A big rain-storm came up from the southeast Monday evening, and the clouds that accompanied it made the more timid nervous. Cyclones have been so frequent this season, and so widely distributed, that a scare is easily worked up. Fortunately, this southeaster was more portentous in appearance than dangerous, and a rather high wind, only, accompanied it.

Dr. W. C. Patton and J. N. Bishop and Geo. Lopez, Esqs., went up to Potosi last week. The opening of the new hall at that place was celebrated with a big ball and supper on Thursday evening, and of course the gentlemen named "couldn't stand the pressure." So they went, had a good time, and returned safe and sound, albeit a little drowsy. They report the ball as a big thing, even for Potosi.

"Is life worth living?" asks an English writer. That depends on the liver; and the liver depends on SMITH'S BILE BEANS. Use them if that large gland is out of order. Twenty-five cents a box.

For sale by Dr. G. W. Farrar, Jr., Pilot Knob, Mo.

Father Hennessy, pastor of St. John's Church, St. Louis, sailed from New York last Saturday, bound to Rome. It is said Pope Leo will shortly convoke a Plenary Council for the United States, and Bishop Ryan thinks Father Hennessy's visit may have some significance in reference thereto, although he (the Bishop) has not heard anything definite about it. The Council, if held, would deal with matters relative to the administration of the Church in America.

The Bonne Terre Reporter, S. G. Tetwiler, editor and publisher, is a neat and newsy six-column folio just established. The first three numbers were gotten out under difficulties on a quarto-medium jobber, but a long-delayed newspaper press finally arrived, and No. 4 is of respectable size and dimensions. We wish the editor success, and advise him to work and stick. Working and sticking will conquer the world, the flesh and the devil.

The corner-stone of the new Catholic Church at De Soto was laid last Sunday. Father Phelan, of St. Louis, delivered the address, and the ceremonies were witnessed by a large number of people from all points within fifty miles of De Soto. The attendance from Iron-ton and the Valley was not large, owing, principally, to the fact that no one knew of the "special" until it was too late to make arrangements for the excursion.

The Arcadia House has about completed arrangements for summer boarders—some of whom have already arrived. The management cannot insure to visitors the double-stub-and-twisted, old-fashioned chills and fevers that the famous Montezano Springs Resort donates without money or price; but good mountain air, pure spring water, and comfortable lodgings are guaranteed to all.

Mrs. Lopez is now in St. Louis, replenishing her stock of millinery and ladies' notions. During the week the goods will arrive and be displayed to the gaze of the public, and all may rest satisfied that the newest and best styles and merchandise will be represented. Prices, as heretofore, at the lowest notch.

Next Sabbath is "Children's Sunday," and the Methodist Church will be decorated with flowers and otherwise trimmed to suit the occasion. A general invitation is extended to the public. Rev. J. Marriott will talk to the children, and his remarks will be worthy the attention of older boys and girls, as well.

HOUSEHOLD WORDS.—DeLand's Soda has made its way into nearly every household in the land; and wherever the mistress prefers good materials to bad, it keeps possession. It is the best in the market. Sold in Iron-ton at Lopez's and Delano's.

The devil's pack horse—who is he?  
Ans.—When Mr. A. tells to Mr. B., as a secret, something very derogatory to the character of Mr. C., and then Mr. B. goes and tells Mr. C. what Mr. A. said about him.

**The Clonion Club.**

Notwithstanding the dripping clouds and dismal streets, the faithful members of the Clonion assembled at their usual place of meeting and continued their historical researches. They were much pleased to welcome Dr. A. S. Prince as a visitor, and hope he will often encourage them by his presence. After a review of some of the events during the Commonwealth, the reign of James II. was discussed. Miss Pilley read a well prepared sketch of James's life and the chief events of his short reign; then gave Lingard's account of the accusation and imprisonment of the seven Bishops, whose trial did so much to hasten James's downfall.

Mr. Moser read an interesting history of Mary Beatrix, of Modena, second wife of James. A short biography of Butler and Locke was read, and a few items on general subjects were presented and the club adjourned.

The subjects for next evening are, viz: William and Mary, Sir Isaac Newton, Jeremy Taylor, Baxter, and other literary characters of this period. S. G. F.

**In All Thy Gettings, Got Strength.**

If the skin be yellow and the bowels constipated; if you have ringing in your ears and dull pains in the side, sick headache, sour stomach, hot or dry skin, spots before the eyes, bad taste in your mouth, cold feet and hands, sleepiness, giddiness, loss of appetite, bad circulation of the blood, swelled limbs, etc., you may safely conclude your liver is out of order. The liver is more apt to become disordered than any other organ of the body, as its duty is to filter the impurities from the blood. When it becomes weak, obstructed and diseased it must fail to do its duty, and the whole body suffers. Go to G. W. Farrar, of Pilot Knob, and get a bottle of White's Prairie Flower, the great Liver Panacea, which has the largest sale of any liver medicine in the world. Dr. Farrar will present you with one dollar and sixty-five cents' worth of choice music with each 75-cent bottle. Samples 25 cents. 1-apr26-1y
